

Solo Uno

Streamer with built-in amplifier

ARCAM
by HARMAN

The Solo Uno brings total simplicity to the complex world of audio streaming by providing a compact, stylish and elegant streamer with a built-in amplifier. Boasting the class-leading Arcam sound quality, the effortless system requires just two speakers, the Solo Uno and a mobile device using the native music app of choice via Apple Airplay2 or Google Chromecast. In addition, the Solo Uno can be updated “over the air” automatically to provide enhanced future streaming features and years of listening enjoyment.

Features

- Class leading super-efficient amplifier design
- Stylish cast aluminium case
- A simple system that only requires two speakers, the Solo Uno and an app
- GoogleCast, Airplay 2, uPnP Streamer
- Optimised for low noise and minimum distortion
- High-end audio circuitry
